

Viva and Certification Rules

1. 1st Lab viva is scheduled on 15-18/11/2021 (in lab timings). Viva will run parallelly with the lab session. Lab instructor will take viva of each student either of two labs scheduled in a week. All should present for both the days. Syllabus is up to sorting. Every candidate should switch-on their video during viva session (Marks: 5).
2. 2nd Lab viva is scheduled on 6-9/12/2021 (in lab timings). Same rules as 1st viva would be maintained. Syllabus: Full DS syllabus. (Marks: 5)
3. You must submit any MOOC course certificate from any reputed organizations. The course should be on Data Structure / Data Science associated with any computer language like C, C++, Java, Python etc. There is no requirement of course hour duration. Last date for MOOC certificate submission is 30th November 2021 11:55 p.m. No request would be considered afterwards. Link for certificate submission is visible in LMS. (Marks: 5)
4. From the above 3 components, best of 2 components marks will be considered. (Total Marks: 10)

For any further query, contact your lab instructor.
